### Recommended Citation

Roman, Maria, "Baystate Health Sciences Newsletter - Fall 2018" (2018). *Library Newsletters*. 25.  
[https://scholarlycommons.libraryinfo.bhs.org/library\\_newsletters/25](https://scholarlycommons.libraryinfo.bhs.org/library_newsletters/25)

This Book is brought to you for free and open access by the Scholarly Commons @ Baystate: Images & Archives at Scholarly Commons @ Baystate Health. It has been accepted for inclusion in Library Newsletters by an authorized administrator of Scholarly Commons @ Baystate Health.

### Message from the Librarian:

Does your department have documents, archives or images but no place to store them? Institutional repositories such as Baystate's [Scholarly Commons](#) are not just for universities anymore and we welcome your department's print and digital content! As digital technologies continue to evolve, medical centers and other institutions recognize how repositories can help raise their profile on the Web and bring together under one umbrella a variety of content that reflects their institution's identity, priorities and mission. Baystate's Health Sciences Library established Scholarly Commons a few years ago to track and maintain a repository and publishing platform and even an [expert gallery](#) of Baystate's published authors and researchers. All content is accessible from the Health Sciences [Library Web site](#) or wherever there's an Internet connection, and even includes social media options. Our flagship publications component showcases our tradition of quality patient care and academic excellence and holds records of [Baystate peer-reviewed publications](#) and scholarly communication over the years. Send us your department's [newsletters](#) and blogs, [clinical images](#), [historic archives](#), [presentations](#), [posters](#) and more, or for more information contact the Health Sciences Library at 794-1865.

Ellen Brassil, MSLIS, MAT, AHIP

## ClinicalKey<sup>®</sup> for Nursing

ClinicalKey for Nursing provides quick, point-of-care content on over 175 diseases and conditions, as well as in-depth, evidence-based practice information from leading journals, books, and guidelines in the nursing field. ClinicalKey for Nursing includes some of the same useful features as the larger database, ClinicalKey, such as:

- customized patient education handouts
- continuing education contact hours
- mobile app for instant point-of-care access

Presentation Maker for inserting images into your PowerPoint presentations

In addition to content found within the original journal article or book chapter, ClinicalKey for Nursing includes concise summaries called Clinical Overviews and Disease Overviews, written by experts in the field and tailored to a clinician's busy workflow. ClinicalKey for Nursing can be found under Selected Resources on the library page: <http://libraryinfo.bhs.org/home>.

## Ask us about OpenAthens

OpenAthens is an authentication system for accessing electronic resources. Registering for an account will allow you to access the Health Sciences Library's electronic resources with one username and password. Electronic resources are then accessible from any Internet enabled device at any location using your username and password.

## LIBRARY SPACE

The Health Sciences Library is located in the Chestnut Building where we provide public and private space conducive to learning, studying, meetings and teaching.

**Computer Lab** - Provides 15 PCs and a large monitor, an ideal space for teaching and/or training.

**Small Conference Room** - Includes a conference table with seating for up to 8 people. The room also has a PC, a large dry/erase board and now includes a display monitor.

In addition to the large laptop room we have a smaller private conference room in the back of the library for 2-3 people.

Lastly we have designated areas for collaborative learning for your convenience one of which now includes a table with seating for up to 4 people plus a bonus large monitor. You can [reserve the conference rooms online](#) or by calling ext. 41982
