## Recommended Citation

Roman, Maria, "Baystate Health Sciences Library Newsletter - Winter 2019" (2019). *Library Newsletters*. 26.  
[https://scholarlycommons.libraryinfo.bhs.org/library\\_newsletters/26](https://scholarlycommons.libraryinfo.bhs.org/library_newsletters/26)

This Book is brought to you for free and open access by the Newsletters and Blogs at Scholarly Commons @ Baystate Health. It has been accepted for inclusion in Library Newsletters by an authorized administrator of Scholarly Commons @ Baystate Health.

Winter 2019

### Message from the Librarian:

The book format has evolved over centuries going back to ancient scrolls, tablets and wooden codex, to the illuminated manuscripts of the medieval era, to the old English “boc” or written documents comprised of parchment or vellum. Ink on paper and moveable text along with Johannes Gutenberg’s invention of the printing press in 1440 created a demand for mass distribution and efficient production methods all the way up to the electronic books of today. The Baystate Health Sciences Library has access to thousands of electronic books, with collections such as Clinical Key or Access Medicine, plus open access books including the NCBI bookshelf, and many “a la carte” individual titles. While even futurists now agree that electronic books will never totally replace the printed book experience at our library or anywhere, electronic books offer digital content and major searchable collections to unlimited users at any Baystate location or remotely - while never having to leave your seat! Many publishers include CE credit and continuously updated content that can be downloaded and saved to your desktop, dropped into presentations, attached to patient records, highlighted, saved and integrated your own notes. Below is a selected listing of our electronic book resources, which can never be lost or stolen! What you don’t find here we will consider for purchase or obtain through our borrowing networks.

Ellen Burchill Brassil, MSLS, MAT, AHIP

### SEND US YOUR BLOGS & NEWSLETTERS

Calling all Baystate departments and centers to send us your newsletter or blog for easy access and archiving in our institutional repository, [Scholarly Commons @Baystate Health](#), which helps disseminate, organize and maintain the institution’s scholarly output, and showcases and preserves a variety of material, from archives and images to publication records of an ever-growing volume of health sciences literature. Reflecting a similar development of online communities and digital publishing world-wide are the growing numbers of quality newsletters and blogs emerging from all corners of Baystate Health. You will recognize some of them already on the [newsletter page](#), to be [easily accessed](#) and permanently archived. Content in Scholarly commons is highly visible on the Web, or, you may choose to limit viewing to Baystate only or just to a few people. Contact the [Health Sciences Library](#) today if you would like us to add your blog or department newsletter or other archival material to Scholarly Commons, or if you have any questions.

### SPOTLIGHT ON BAYSTATE AUTHOR

Congratulations to our very own author Dr. William McGee whose Chapter titled **“Intraoperative Monitoring”** was published in the book [Principles and Practice of Anesthesia for Thoracic Surgery](#) – coming soon.

### ASK US ABOUT OPEN ATHENS

OpenAthens is an authentication system for accessing electronic resources. Registering for an account will allow you to access the Health Sciences Library’s electronic resources with one username and password. Electronic resources are then accessible from any Internet enabled device at any location using your username and password.

## GRAPHIC MEDICINE

Check out our new Graphic Medicine collection! Graphic medicine is the use of comics in health sciences education and patient care to describe stories of illness and health. The Library and Academic Affairs combined resources to purchase over 50 graphic medicine books to begin this collection. Topics range from cancer to addiction to mental health and are written from the perspective of practitioners, patients and caregivers. Come borrow a book or two from the library, or kick up your feet in one of our comfortable chairs and read a book during your lunch break!
