This Book is brought to you for free and open access by the Newsletters and Blogs at Scholarly Commons @ Baystate Health. It has been accepted for inclusion in Library Newsletters by an authorized administrator of Scholarly Commons @ Baystate Health.

Message from the Librarian:

The Baystate Library is committed to supporting every effort on the part of our clinicians and entire Baystate community in addressing the challenges of opioid use disorder (OUD). While the Library is physically distant from the front lines where our many dedicated healthcare professionals are working hard to intervene and combat the problems and complexities of this serious issue, we can offer current, quality information on demand to anyone who asks. Just as the National Library of Medicine (NLM) and National Institutes of Health provide resources for both the general public and health professionals to learn about OUD and overdose prevention and treatment options, this issue of the Library newsletter includes a library subject guide (LibGuide) on the topic with lists and links to selected resources, such as [The ASAM Principles of Addiction Medicine](#), and some for both the consumer and the healthcare provider. Also featured are resources accompanying a recent NLM webinar that cover the following topics: general information on addiction and opioids, drug information, locating local and national health statistics, reference tools, information on overuse, prevention and treatment. Included too are selected journals, reports, media and other material that can be used in community outreach education. Don't forget to request a literature search on any topic related to OUD, or related data and we'll quickly provide the information needed.

Ellen Burchill Brassil, MSLIS, MAT, AHIP

OPIOID USE DISORDER (OUD)

In the September 2019 issue of The [Keroack's Corner Newsletter](#), Dr. Keroack addressed the Opioid Epidemic here in Western Massachusetts. He highlighted the efforts being made by Baystate Health together with community leaders in a coordinated approach to tackle OUD. The library has put together a guide that contains information on the programs which Dr. Keroack referred to in addition to resources available on the State & National level. See the guide titled: [Opioid Use Disorder \(OUD\)](#)

AN UPDATED PUBMED IS ON ITS WAY!

As the biomedical literature increases at a significant rate in [PubMed](#), NCBI has continuously experimented and investigated ways to improve the overall search quality and user experience. An updated version of PubMed, which will eventually replace the current version, is now available on the experimental [PubMed Labs Platform](#). The updated version of PubMed includes:

- Enhanced Search Results
- Responsive Design
- Updated Technology

ELSEVIER CLINICAL PHARMACOLOGY

The Library is pleased to announce a free trial for the next month of the drug information system from Elsevier, [Clinical Pharmacology](#). Baystate clinicians are encouraged to explore Clinical Pharmacology and let the Library know of any questions or comments, or ask us about attending a short Webex online for an introductory overview and discussion with a practicing pharmacist and customer representative. Key features include:

- **Immediate access to important updates**
Provides important updates even on weekends and holidays, which is unique among drug references. This helps organizations avoid harmful and costly medication errors and safeguard patients.
- **Superior quality content**
Evidence-based, peer-reviewed content developed by pharmacist editors with expertise in their therapeutic areas ensures superior quality.
- **Top speed-to-answer for quick, confident decisions**
No other drug reference provides point-of-care answers faster, for rapid yet well-informed decisions that contribute to the highest caliber patient care.
- **All inclusive, enterprise-wide solution**
Delivers drug monographs including neonatal/pediatric content, patient education, IV compatibility, toxicology, drug class overviews, CMS approved oncology content, custom reports and more.
- **Flexible delivery options**
Web-based, workflow integration and a [native mobile app](#).
- **Part of Elsevier's ClinicalKey** The most powerful online clinical reference tools with authoritative and continuously updated content drawn from the most trusted sources

STREAMLINED LOGIN FOR RESIDENTS' ACCESS TO BoardVitals!

The Library and Knowledge Services team is excited to announce new and improved login and registration interfaces/buttons for BoardVitals.

Existing users can simply click the LOGIN button to be taken directly to their panel. New users can REGISTER and are taken at once to the registration landing page.

Please contact the (413-794-1865 or HealthSciencesLibrary@baystatehealth.org) with any questions.

NATIONAL MEDICAL LIBRARIANS MONTH

October was National Medical Librarians Month, a perfect time to remind everyone that Baystate has a knowledgeable team of librarians and staff committed to helping you save time and succeed in your patient-care, educational, and research efforts. The library celebrated this month by putting together a book display with titles written by Baystate Health authors. Papers and other scholarly works listed by department can always be viewed in our [Scholarly Commons repository!](#)

Stop by the Library & Knowledge Services to:

- Obtain articles and books
- Access eBooks, eJournals and other digital resources
- Learn advanced search techniques
- Search using your mobile device
- Manage references using EndNote
- Schedule consultations or classes
- Request search alerts or updates
- Identify reliable consumer health information
- Use computer training room and other learning space
