Message from the Librarian

Among the Executive Actions signed by President Biden during his first day in office is an [Executive Order](#) on “Advancing Racial Equity and Support for Underserved Communities Through the Federal Government.” While addressing Federal agencies, the importance of a systemic approach to furthering racial equality among other public and private institutions is noted too. The Baystate Health Sciences Library is committed to equity and inclusion measures and identifying new ways to promote these important goals. During the month of February when we have often recognized Black History Month with book talks or other activities, the Library reminds the Baystate Community of our growing collection of diversity and inclusion books as part of a joint effort with the Office of Education to combat racism and promote equity. These titles may be found in the [Library’s subject guide](#) and in our [online catalog](#) and are shelved to the immediate right upon entering the Library. Along with an expanding list of equity anti-racism books, our subject guide includes relevant journal articles, selected Baystate Grand Rounds and other videos - and even a PubMed search feed. As new content is published, the Library again invites members of the Baystate community to make recommendations or consider donating from our wish list. Donations may be made anonymously or in honor or in memory of a person or event – which we will recognize with a formal book plate if desired. The Library will continue to find new ways in both our virtual and on-site information-rich environment to promote inclusion and racial equity and combat racism and prejudice. For more information contact us: library@bhs.org

Accessing Library Resources

All of our electronic subscriptions (journals, e-books, databases) are IP authenticated, which means you do not need an institutional login to access these resources, but you do need to be within Baystate’s IP range. Network access can be achieved through: (1) any computer at a Baystate Health location, (2) the Citrix portal, or (3) an OpenAthens account. You can also use the BrowZine app to access our journals from your mobile device. If you would like more detailed information on these various

access points, please check out our [Accessing Articles and Databases Handout](#), or contact the library with any questions (library@baystatehealth.org)

Important Changes to NCBI Accounts Coming in 2021

Do you login to NCBI to use MyNCBI, SciENcv, or MyBibliography? Do you submit data to NCBI? If so, you’ll want to read further to get a first glimpse

of some important changes to NCBI accounts that will be coming in 2021.

NCBI will be [transitioning to....\(read more\)](#).

Feel free to contact the library at ext. 41865 for detailed guidance.

New Education Tools from VisualDx

Looking for new resources to spice up your clinical decision teaching or learning? Check out a series of case vignettes and pop quizzes created by VisualDx and available for you to download from Dropbox: [VisualDx Education](#)

Announcements

Congratulations to Dr. Amy Gottlieb on the publication of her brand new book: [Closing the Gender Pay Gap in Medicine: a Roadmap for Healthcare Organizations and the Women Physicians Who Work for Them](#).

Now available at the Health Sciences Library
W 79 G684c 2021

Recent Additions to the Library Catalog

[Atlas of gastrointestinal pathology : a pattern-based approach to neoplastic biopsies.](#) 2019
Lam-Himlin, D.

[Closing the gender pay gap in medicine : a roadmap for healthcare organizations and the women physicians who work for them.](#) 2021
Gottlieb, Amy S.

[Essentials of Osborn's brain : a fundamental guide for residents and fellows.](#) 2020
Osborn, Anne G.

[Robbins & Cotran pathologic basis of disease. Tenth edition.](#) 2021
Robbins, Stanley L.

[Rockwood and Green's fractures in adults. Ninth edition.](#) 2020
Tornetta, Paul.

[Rockwood and Wilkins' fractures in children. Ninth edition.](#) 2020

[Scheuer's liver biopsy interpretation. Tenth edition.](#) 2021
Lefkowitz, Jay H.

[Soft tissue and bone.](#) 2021
Montgomery, Elizabeth.

[Waking Up White.](#) First edition. 2014
Irving, Debby.

Did you know?

If you are experiencing an access problem, oftentimes simply switching your Browser to Google Chrome can resolve the issue.

INDEX MEDICUS SERVED US WELL

AS OUR KNOWLEDGE OF MEDICINE EVOLVED, SO DID THE RESOURCES WE USED TO ACQUIRE THAT KNOWLEDGE.

FROM 1879 TO 2004, INDEX MEDICUS WAS THE PRINT BIBLIOGRAPHIC INDEX OF MEDICAL ARTICLES.

OUR LIBRARY HOLDS 100+ YEARS OF THESE VOLUMES.

We now use The National Library of Medicine's PubMed, among many other important tools, in our search for information, answers and knowledge.

UpToDate Advanced

UpToDate, one of the Library's premiere point-of-care tools launched an enhanced version not long ago that's now included with Baystate's basic UpToDate subscription – when accessing from the mobile app, Internet browser or integrated within the electronic health record. **UpToDate Advanced**, offers two new components: Clinical Pathways and, Laboratory Interpretations to reduce variation in care and improve patient outcomes.

Clinical Pathways is based exclusively on **content synthesized from UpToDate** and helps the clinician adjust care management when initial pathways fail.

- Employs an interactive process utilizing input specific to the patient.
- Combines clinician's expertise, current evidence and patient-specific factors to offer immediate guidance.
- Includes summary recommendations.
- Provides clinical guidelines and evidence-based literature in "Related Content".

Lab Interpretations is useful whenever lab results raise questions:

- Review and choose next likely steps.
- Monographs use algorithms offering quick summaries to browse for most likely conditions.
- Recommends follow-up.

A combination of over 11 thousand UpToDate topics, graphics and other features helped develop UpToDate Advanced. Baystate clinicians can expect instruction and database support options from the Health Sciences Library in the weeks ahead to answer questions and ensure optimal use. [Watch this brief introductory video](#) or contact the Library: (413) 794-1865 or library@bhs.org with your questions.
