

Baystate Health Sciences Library

Summer/Fall 2011

With this first edition of the Health Sciences Library Newsletter, all newcomers and veteran Baystate staff are invited to stop by the Health Sciences Library on the ground level of the Chestnut building or to visit our Web site located at: <http://libraryinfo.bhs.org/>. Our key services and information tools are conveniently accessible - remotely or at the point-of-care to help support patient care, and research. We encourage you to explore a variety of resources and knowledge services.

Ellen Burchill Brassil MSLIS, AHIP
Director, Health Sciences Library
